

January 5, 2011

VIA COURIER

Ms. Shannon McNeill
Senior Project Evaluator
Renewable Energy Approval
Environmental Assessment and Approvals Branch
Ministry of the Environment
2 St. Clair West, 12A Floor
Toronto, ON. M4V 1L5

Dear Ms. McNeill:

RE: St. Clair – Moore Renewable Energy Approval Application

We are the planning consultants acting on behalf of First Solar Development (Canada), Inc. ("First Solar"). First Solar is the owner of the lands at the northwest corner of Rokeby Line and Highway 40 in the Township of St. Clair for which they have two Renewable Energy Standard Offer Program (RESOP) contracts to develop and operate a 20 MW ground-mounted solar farm. This cover letter and enclosed documentation forms the required Renewable Energy Approval ("REA") application for the proposed St. Clair Moore solar farm pursuant to Part V.0.1. of the *Environmental Assessment Act* (Act) and Ontario Regulation 359/09.

APPLICATION HISTORY

In accordance with O. Reg. 359/09, on February 23, 2010 the Natural Heritage Assessment ("NHA") was submitted to the Ministry of Natural Resources ("MNR") for review. As First Solar did not receive any comments from the MNR on the NHA before May 17, 2010, the Moore solar farm REA application was submitted at that time with the draft NHA. The REA application was subsequently deemed incomplete and returned to First Solar on June 11, 2010 along with a regulation compliance chart provided by the MOE outlining deficiencies in the submission, including lack of an MNR confirmation letter. On June 14, 2010, representatives of First Solar met with MOE staff (Mansoor Mahmood, Narren Santos and Petra Fisher) regarding the MOE assessment of the returned REA application. On June 18, 2010, First Solar representatives met with Heather Riddell of the MNR to review comments on the NHA.

After requested amendments were made to the supporting reports and studies, a revised NHA was resubmitted to MNR on July 19, 2010 and the Moore REA application was resubmitted to MOE on July 20th, 2010. A conference call was held on July 28, 2010 with MOE to discuss the submission and status of the MNR confirmation letter. As requested by you during the call, an addendum to the Design and Operations Report and cover letter for the Municipal Consultation package was submitted by First Solar on July 30th, 2010.

On August 27, 2010, First Solar representatives met with MNR staff to discuss comments on the NHA and timing of the receipt of MNR's confirmation letter. Given that issuance of the confirmation letter was not imminent, the MOE again returned the Moore REA application to First Solar, but noted that the application was fully complete except for the provision of the MNR confirmation letter (see appended letter dated August 31, 2010 from MOE).

On September 29, 2010 a revised NHA was submitted to MNR for review. On January 4, 2010 the MNR confirmation letter was received and is included in the enclosed REA submission appended hereto.

As such, the requirements regarding the form and content of the reports and studies supporting the application are now met and the REA application is hereby submitted.

AMENDMENTS TO REPORTS AND SITE PLAN SINCE JULY 20, 2010 RESUBMISSION TO MOE

Due to advancements in solar technology and evolving construction practices, an amendment to the site plan was made on August 24, 2010 to increase the width of access roads to facilitate new construction practices. Original setbacks to neighbours were not negatively impacted and in no case was any reduction made. As noted in the Municipal and Public Consultation Report, on August 24, 2010 First Solar sent a letter to neighbours of the proposed solar farm advising of the changes to the site plan since the final public meeting and inviting further comment along with a prepaid envelope and comment sheet. No comments were received from this additional consultation.

On November 15, 2010, an amendment to the site plan was made to address MNR's comments on the collapsed dwelling and barn that were proposed to be demolished. This portion of the site is being treated as Eastern Fox snake habitat and will be avoided during construction. To accommodate this amendment, the solar array area was further setback away from this feature and connection point shifted east which resulted in no overall change in the project location.

The Natural Heritage Assessment has also been revised in accordance with MNR's comments. MNR's confirmation letter regarding the acceptability of the final NHA is included.

As required by O. Reg. 359/09, the Municipal and Public Consultation Report was amended to include further details on the aforementioned changes to the reports and studies.

SUBMISSION REQUIREMENTS

As required, the following documents are provided (one original and two copies are enclosed):

- Executed Renewable Energy Approval application form dated January 5, 2011;
- Proof of Legal Name of Applicant;
- Noise Impact Assessment dated December 2010;
- Stage 1 Archaeological Assessment dated August 2008;

- Letter regarding review and acceptance of Stage 1 Assessment dated December 7, 2009;
- Stage 2 & 3 Archaeological Assessment dated May 2009;
- Letter regarding acceptance of Stage 2 & 3 Assessment dated December 7, 2009;
- Stage 3 Archaeological Assessment Location 2 Property 1 dated August 2009;
- Letter regarding review and acceptance of Stage 3 Assessment dated December 7, 2009;
- Stage 4 Archaeological Assessment Property 1 Location 1 dated August 2009;
- Letter regarding review and acceptance of Stage 4 Assessment dated December 7, 2009;
- Stage 4 Archaeological Assessment Property 1 Location 2 dated January 2010;
- Letter regarding review and acceptance of Stage 4 Assessment dated May 6, 2010;
- Letter regarding MTC clearance letter for REA application dated June 25, 2010;
- Construction Plan Report dated November 23, 2010;
- Decommissioning Report dated March 26, 2010;
- Design and Operations Report dated November 17, 2010;
- Design and Operations Report Addendum dated January 5, 2011;
- Project Description Report dated January 5, 2011;
- Protected Properties Report & Heritage Assessment dated November 23, 2009;
- Conceptual Stormwater Management Plan dated April 2010;
- Access & Traffic Operation Effects Assessment dated May 2010;
- Municipal and Public Consultation Report dated January 5, 2011;
- Aboriginal Consultation Report dated October 29, 2010;
- Letter from MNR Regarding Petroleum Resources dated October 20, 2010;
- Oil, Gas & Salt Resources Memo dated September, 2010;
- Natural Heritage Assessment dated December, 2010; and,
- Confirmation Letter from MNR dated January 4, 2011.

One additional copy of the complete application package has also been sent to the Ministry of Environment Sarnia District Office. Each Report and Study is also available on the First Solar project website (canada.firstsolar.com) and will remain posted until the Director makes a decision under Sec. 47.5 of the Act.

REQUIRED TIMING FOR RENEWABLE ENERGY APPROVAL DECISION

It should be noted that the RESOP contract for the Moore project requires the Commercial Operation Date (COD) to be July 26, 2011. In light of the delays experienced in obtaining MNR's confirmation letter and in order to meet this tight construction timeframe, it is critical that the REA be issued by February 23, 2011 and be in full force and effect (cleared appeal period). As such, we request that the REA application be reviewed by MOE concurrently with the 30 day EBR posting and a decision on the REA application made no later than February 14, 2011.

If you have any questions, or require additional information, please do not hesitate to contact us at (416) 364-5926.

Sincerely,

LAKESHORE GROUP

THE LAKESHORE GROUP

Paul Barrette, M.C.I.P., R.P.P.
MANAGER

Pamela Horton, MacLeod Dixon LLP

General Information and Instructions

Form Version 1.1

General

Information requested in this form is collected under the authority of the *Environmental Protection Act*, R.S.O. 1990 (EPA) and will be used to evaluate this application for a Renewable Energy Project. Questions about this collection of information should be directed to: Information Unit Supervisor, Environmental Assessment and Approvals Branch, 2 St. Clair Ave. W, Floor 12A, Toronto ON M4V 1L5. Telephone outside Toronto 1-800-461-6290 or in Toronto 416-314-8001.

Instructions

1. **Applicants are responsible for ensuring that they complete the most recent application form.** Application forms and supporting documentation are available from the Environmental Assessment and Approvals Branch toll free at 1-800-461-6290 (locally at 416-314-8001), from your local District Office of the Ministry of the Environment, and in the "Publications" section of the Ministry of the Environment website at www.ene.gov.on.ca.
2. Questions regarding completion and submission of this application should be directed to the Environmental Assessment and Approvals Branch, 2 St. Clair Avenue West, Floor 12A, Toronto, Ontario, M4V 1L5, telephone number 1-800-461-6290 or (416) 314-8001, or to your local District Office of the Ministry of the Environment.
3. **Complete Submission**
In order to be eligible for the issue of a renewable energy approval, a person who proposes to engage in a renewable energy project shall, before submitting an application to the Director,
 - 1) prepare the application in a form or format approved by the Director;
 - 2) obtain or prepare, as the case may be, any documents that,
 - a) are required under Part IV to be submitted as part of the application, or
 - b) are to be submitted as part of the application for the purposes of obtaining an exemption from a provision of Part V; and
 - c) comply with all other requirements of Part IV of Ontario Regulation 359/09.
 - 3) If there is more than one person applying for the issue of a renewable energy approval in respect of a renewable energy project, those persons shall jointly submit one application for the issue of a renewable energy approval.
 - 4) An application to alter the terms and conditions of a renewable energy approval shall be prepared in a form or format approved by the Director and shall be submitted to the Director.

Supporting documents

- 1) A person who proposes to engage in a renewable energy project shall submit a document set out in Column 1 of Table 1 of the Regulation as part of an application for the issue of a renewable energy approval in respect of the project if it is a project described opposite the document in Column 3.
- 2) If a document set out in Column 1 of Table 1 of the Regulation is submitted as part of an application for the issue of a renewable energy approval, the person who is engaging in the renewable energy project shall ensure that the document meets the requirements set out opposite the document in Column 2 of Table 1 of the Regulation.
- 3) Any document submitted as part of an application for the issue of a renewable energy approval shall be in writing.
- 4) Any document submitted as part of an application for the issue of a renewable energy approval that is a diagram, map or plan shall be drawn to scale and shall include a scale bar and a north arrow.

INCOMPLETE APPLICATIONS WILL BE RETURNED TO THE APPLICANT.

The Ministry may require additional information during the technical review of any application.

4. If you are submitting your application electronically, electronic PDF application form should be completed and submitted by email to REAESubmission@ontario.ca. Once the application has been received, you will receive an acknowledgement email with an MOE reference number for your application and additional instructions for submitting your hard copy application package and supporting information.

If you are not submitting your application electronically, the original application form and all required supporting documents must be sent to:

**The Ministry of the Environment,
Director, Environmental Assessment and Approvals Branch,
2 St. Clair Avenue West, Floor 12A, Toronto, Ontario, M4V 1L5**

A copy of the complete application must be sent to any local Ministry District Office having jurisdiction over the project location. To locate the appropriate local Ministry District Office, please visit the Ministry of the Environment Internet site at: www.ene.gov.on.ca/envision/org/op.htm#Reg/Dist.

A cover letter addressed to the Director of Environmental Assessment and Approvals Branch should accompany both submissions and indicate that a copy of the complete submission has been sent to each District Office that has jurisdiction over the project location.

5. Information collected by the Ministry of the Environment is subject to the *Freedom of Information and Protection of Privacy Act* (FOIPPA). If you are of the view that any part of your application is confidential on the grounds such information constitutes a trade secret or scientific, technical, commercial, financial or labour relations information, please make this known now. Otherwise, the Ministry may make the information available to the public without further notice to you.

Application Summary

Project Name *(Project identifier to be used as a reference in correspondence)*
St. Clair - Moore Solar Farm

Project Description Summary
(This summary should reflect the description in the documents upon which consultation has been completed and if it does not, the difference should be highlighted)
A solar farm is proposed which will collect the energy from the sun using thin film photovoltaic modules and convert it to electrical energy for distribution to the local electricity distribution system. The proposed solar farm will be capable of producing 20 MW of electricity and will be developed on a 297 acre (120 ha) parcel of land located east of Mooretown in the Township of St. Clair (north of Rokeby Line, west of Highway 40). The solar farm is designated as a "class 3" solar facility as defined by Section 4 of O. Reg. 359/09 regarding Renewable Energy Approvals. For more information please see Project Description Report.

Required Information	Completed (yes or no)

***Please note:** the release of information contained in application forms and documentation submitted in support of applications for approval is subject to the provisions of the *Freedom of Information and Protection of Privacy Act*. This Act defines what may and may not be disclosed to the public, and is used to assess all requests for information contained in the documents on file with an application for approval. The information submitted with an application for approval may also be subject to the *Environmental Bill of Rights*. In those situations, the application and the associated non-confidential supporting documentation is made available for review by members of the public. The applicants should therefore identify all documents or portions of documents as noted above which are to be considered confidential and must provide detailed evidence in support of this claim. This evidence will be one of the factors the ministry would consider when making a decision regarding disclosure of specific documents on file.
