

Summerhaven Wind Energy Centre

Community Liaison Committee (CLC): Meeting No. 3

Wednesday, May 22, 2013
6:30 - 8:30 pm

Cayuga Kinsmen Community Centre
12 Winnett S, Cayuga (Haldimand County)

Open to the General Public - for Observation

A Community Liaison Committee (CLC) has been established as a forum to exchange ideas, share information and provide regular updates on the construction, installation, operation, maintenance and retirement of the Summerhaven Wind Energy Centre ("Facility"). The CLC will not re-visit matters previously raised during the proposal/planning stage for the Facility (e.g. location of a Wind Centre in Haldimand County or the subject site, the *Green Energy Act*, the MOE's approval process, etc.).

This meeting represents the third of four (4) CLC meetings coordinated and facilitated by IBI Group over a two year period, as mandated by the Minister of Environment's December 8th, 2011 Renewal Energy Approval (REA) for the Facility. All meeting materials (e.g. agendas, minutes, presentations, reports, etc.) are available for public review at www.NextEraEnergyCanada.com.

The CLC meetings will be open to the general public for observation. Brief deputations (up to 3 per meeting, at a maximum of 5 minutes each) may be made by members of the general public, providing the depositions pertain to items on the meeting agenda (i.e. the construction, installation, use, operation, maintenance and retirement of the Facility). Depositions will be selected at the discretion of the CLC Chair and the Company, in consultation with CLC members.

In order to be considered for a public deputation, please submit a request and the actual written deposition, at least one week in advance of a planned CLC meeting, to Amy Shepherd of IBI Group:

Email: ashepherd@ibigroup.com

Fax: 416 596-0644 (attention Amy Shepherd)

Mail: 230 Richmond Street West, Toronto, ON, M5V 1V6 (attention Amy Shepherd, IBI Group)
