**Re: Private Water Well Survey  
SunEast Flat Creek Solar**

Dear Landowner,

On behalf of SunEast Flat Creek Solar, TRC Companies, an environmental consultant, is gathering information regarding private water wells as part of the environmental review process for a prospective solar farm. The attached questionnaire is being sent to landowners owning parcels that lie within 1,000 feet of the area being considered for solar development. The purpose of this questionnaire is to gather information regarding private wells such as location, depth, well construction, and approximate yield to help inform project siting and engineering.

It is not anticipated that project infrastructure will interfere with or directly impact any wells, but we are collecting and analyzing location and condition information to help ensure that project components are located in a manner that best avoids potential impacts.

Please complete the survey included within this package to help accurately identify water wells on your property. A postage paid return envelope is included for your convenience. We ask that you please fill out and mail no later than July 10, 2023.

If you have any questions regarding the Project or the request herein, please contact Greg Elko by calling (267) 815-1432 or via email at [Greg.Elko@SunEastPower.com](mailto:Greg.Elko@SunEastPower.com). Thank you for your time and attention to this request.

Sincerely,

Jason Dickey  
Senior Project Manager, TRC Environmental
